

MAKAZE YIELD PRO®

“The Missing Link in Achieving Ultimate Yields in Roundup Ready® Crops”

MAKAZE YIELD PRO® is an enhanced MAKAZE® formulation with the ability to increase overall plant health and yield.

PRODUCT FEATURES:

APPLICATION TIMING —

1st Application in Roundup Ready Crops

MAKAZE YIELD PRO has the ability to perform where other glyphosates fail:

- Hot, dry conditions
- Cooler nighttime temps

MAKAZE YIELD PRO works better on harder to control weeds such as:

- Lambsquarters
- Velvetleaf
- Giant ragweed

MAKAZE YIELD PRO has the quickest uptake of any glyphosate on the market

MAKAZE YIELD PRO has excellent crop safety on all Roundup Ready crops

MAKAZE YIELD PRO contains

ACTIVE INGREDIENTS: Glyphosate + IBA + Kinetin

ADJUVANT RECOMMENDATIONS:

drift control

water conditioner

Crop Areas	Application Timing	Expected Yield Increase
Soybeans	V1 -V4	2-3 Bu./A

PRODUCT BENEFITS:

Improved delivery system:

- Quickest to the roots
- Rainfast
- Less drift
- Quicker, more complete kill

Confidence and proof of control

- No weather worries
- Works in tough conditions

Increases:

- Root formation/mass
- Nutrient uptake
- Plant vigor
- Water uptake
- Yield potential
