

Black Label[®] Zn

Foliar or Soil Applied

BLACK LABEL[®] ZN - Complexed with organic acid, Black Label[®] Zn (6-20-0, 0.77% zinc) is a patented nitrogen and phosphate formulation with zinc designed to protect phosphate tie-up in the soil and help reduce nitrogen loss.

PRODUCT FEATURES:

- Contains the highest content of organic acid (7.1%) of any formulation in combination with nitrogen and phosphate
- Contains the purest form of phosphoric acid available for use, virtually no heavy metals or contaminants
- Ammonia, phosphoric acid, and organic acid are chemically reacted to form a compound that is readily absorbed by a plant. The phosphate contained is more readily available than conventional phosphate sources.

PRODUCT BENEFITS:

- Excellent crop safety
- Highly efficient and readily plant available
- Excellent phosphate availability
- Excellent application flexibility
- Contains organically complexed zinc
- Can be added with pesticides or other nutrients

APPLICATION INFORMATION:

SOIL APPLICATION RATES : VEGETABLES, CUCURBITS, ROW OR FIELD CROPS - Inject 1 to 3 gallons per acre prior to planting in the soil 2 to 4 inches directly below the seed line.

CITRUS: Inject 1-30 gallons/A

TREES & VINES - Inject 10 to 20 gallons per acre prior to planting in the soil 3 to 5 inches deep at the drip line or surface band and water into the soil.

FOLIAR APPLICATION RATES : ALL CROPS - Use as a supplemental phosphate source prior to mid-season.

A second application may be necessary. Apply with 10 to 30 gallons of water per acre at rates of 1 to 6 gallons per acre depending on crop. May be applied through center pivot irrigation systems.

CITRUS: Apply 2 to 4 gallons per acre in a minimum of 50 gallons of water.

DRIP IRRIGATION : ALL CROPS - Use 1 to 3 gallons per acre per irrigation

APPLIED WITH HERBICIDES ON CITRUS

*See product label for additional directions for use and application rates.

CAUTION: Always check compatibility with other products prior to use. Do not mix with conventional calcium based fertilizers. Black Label Zn is not compatible with conventional products containing the salts of heavy metals.
