

Oryzalin CG 1.67%

Product Overview: Oryzalin CG 1.67% contains 40% more active than any alternative brand oryzalin granule, and our product uses our unique two-coat process, sand-based granule.

Contains: 1.67% Oryzalin

Use Rate: Turf: 100 to 150 lbs. per acre or 2.3 to 3.4 lbs. per 1000 sq.ft.

Ornamentals: 120 to 240 lbs. per acre or 2.75 to 5.5 lbs. per 1000 sq.ft.

Feature and Benefits:

- Excellent control of grassy and certain broadleaf weeds in field and container nurseries, landscape and ornamental beds, and broadcast applications for wall-to-wall warm season turf.
- Extended residual from our unique two-coat granule carrier.
- Extremely dense granule (SGN 90) for maximum soil contact in turf applications or through dense foliage in ornamental beds.
- Easier to use in beds than liquid oryzalin or pendimethalin which can stain plants, landscape rocks or statues with an orange color.

Considerations: This product would be ideal to sell golf courses for their landscape and flowerbeds rather than using liquids, so remember to promote when selling fertilizers for landscape and flowerbeds, etc.

Available: 50 lb bags

Always Read and Follow Label Directions.
