

PROCON-Z™

F U N G I C I D E

Rust on grass

Melting out

Leaf spot on grass

Product Overview: ProCon Z™ is a broad spectrum propiconazole-based fungicide for superior systemic control of tough diseases in turf and ornamentals, including dollar spot, brown patch, anthracnose, take-all patch, leaf spot, necrotic ring spot, spring dead spot, and pink and gray snow molds. Controls more than 20 turf diseases.

Benefits:

- Cost effective control at competitive pricing
- Upwardly systemic activity within the plant.
- Odorless liquid formulation

Chemistry: Propiconazole

Target Markets: Golf courses, lawn and landscapes, ornamental production, sod production, sports turf and facility turf, turf and ornamentals.

Mode of Action: Inhibits sterol biosynthesis in the fungi cell (*Demethylation inhibitor*)

Symptoms of Control: ProCon Z disrupts essential fungal cellular function, resulting in cessation of cell wall formation, as well as other functions within the cell. This disruption results in fungal desiccate.

Pests Controlled:

Anthracnose	Leaf spot	Stripe smut
Brown patch	Melting out	Summer patch
Dichondria rust	Necrotic ring spot	Spring dead spot
Dollar spot	Powdery mildew	Take-all patch
Fusarium patch	Pink patch	Yellow patch
Gray leaf spot	Red thread	Zoysia patch
Gray snow mold		

Recommended Adjuvant of choice:  LI 700
