

product news update

Product Overview

Crossbow® L herbicide is for use in controlling a wide variety of annual and perennial broadleaf weeds, including unwanted trees and brush. The selectivity of **Crossbow L** allows for use in many non-cropland areas, while leaving grass species unharmed.

Features

Selective Herbicide Activity	Controls broadleaves with no injury to most grass species
Systemic Activity	Translocates throughout the entire plant to avoid subsequent regrowth
Broad Spectrum	Annual, biennial, perennial broadleaf weeds; brush and unwanted trees
Application Flexibility	Can be applied by most types of sprayers, ground or aerial (helicopter only)
Dependable	Assurance that your target weeds are gone
Fast Acting	Quick visible results
Minimal Grazing Restrictions	Minimal interruption to your livestock operation

Benefits

Application Information (1)

General Weed Control:

1 to 4 qt/A or 1 to 1.5% mixture

Woody Plant Control:

Easy to Control Species (see label)

1.5 gal/A or 1 to 1.5% mixture

Hard to Control Species (see label)

2 gal/A or 1.5% mixture

Consult label for additional application rates and instructions

(1) This product has maximum application limits; refer to the label under the Application Instructions heading for specific information.

Adjuvant Usage:

Spray coverage can be improved through the use of a Non-ionic surfactant such as **LI-700®** or **Liberate®**. When conditions conducive to drift exist, deposition aids such as **Valid®**, **Target LC™**, or similar products may be used.

Labeled Use Areas:

Rangeland, Permanent Grass Pastures, CRP, Fence Rows, Non-Irrigation Ditch banks, Roadsides, other Non-Crop areas, and Industrial Sites

Grazing Restrictions:

Except for lactating dairy animals, there are no grazing restrictions following application of this product. Grazing lactating dairy animals: Do not allow lactating dairy animals to graze treated areas until the next growing season following application of this product. Do not harvest hay for 14 days after application. Grazed areas of non-cropland and forestry sites may be spot treated if they comprise no more than 10% of the total grazable area.

Active Ingredients:

Crossbow L contains two active ingredients: 2,4-D at 2 pounds per gallon and triclopyr at 1 pound per gallon.

ALWAYS READ AND FOLLOW LABEL DIRECTIONS AND SAFETY PRECAUTIONS.
