

LoKomotive®

Foliar Applied

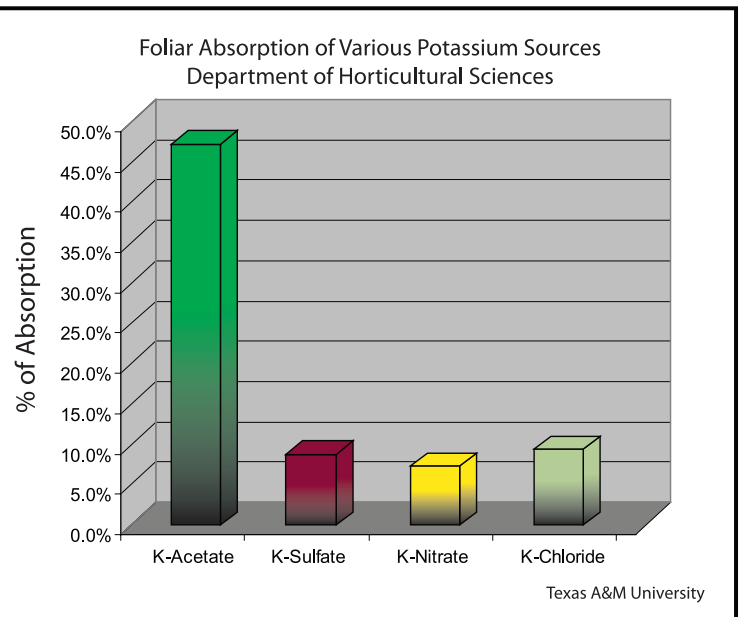

LoKomotive® (2-0-25 Potassium Acetate) is a new type of liquid potassium that has significant advantages and benefits over other foliar applied potassium sources. Unlike other liquid potassium sources, **LoKomotive** has been specifically designed to provide maximum potassium uptake with minimal potential for phytotoxicity. **LoKomotive** is a hybrid of an inorganic salt and organic salt making it a truly unique foliar fertilizer.

PRODUCT BENEFITS:

- Superior foliar uptake and translocation
- Excellent crop safety
- High analysis and absorption equals lower use rates
- Chlorine free
- Superior source of K
- Increased nutrient remobilization

Use Rates (refer to label for more specific use rates)

- 2-6 quarts per acre based on soil and /or tissue analysis for potassium.

APPLICATION INFORMATION:

LoKomotive can be used on ALL field and specialty crops to enhance growth and quality, correct nutritional deficiencies, and help plants rebound from stressful conditions. **LoKomotive** is the solution to solving nutrient uptake needs during peak demand periods.
