Active Ingredients

UNFORGIVEN™

- diflubenzuron

UNFORGIVEN® insecticide delivers broad spectrum pest control across a wide range of field and row crops, specialty crops, orchard crops, and non-crop uses. UNFORGIVEN's active ingredient, diflubenzuron, is an insect growth regulator (chitin inhibitor) which not only provides long lasting residual activity, it is easy on beneficials enabling it to be an excellent fit in IPM programs.
