## Active Ingredients

- 12-0-0 5% B with SRN

MAXIMUM N-PACT® B is an enhanced slow release nitrogen which provides a stable source of foliar nitrogen with the addition of Boron for increased uptake, translocation and utilization of nitrogen and other major nutrients at key reproductive periods, with excellent crop safety and increased stress tolerance.

### Product Benefits:

- Excellent source of foliar nitrogen with the addition of a safe foliar Boron source
- Increased drought and salinity tolerance
- Support major nutrient translocation during reproductive stages
- Suitable for most specialty and field crops to enhance growth and quality, support reproductive function, and help plants recover from stressful conditions
