Active Ingredients

HAISELLO[™] SC

- Clofentezine 42%

HAISELLO[™] SC is a great option for early season mite by controlling the early stages of the mite life cycle and by inhibiting egg laying. The active ingredient Clofentezine in HAISELLO[™] SC is soft on beneficial insects and tough on many mite species including two-spotted spider mite, Pacific mite, European red mite and Willamette spider mite.

Product Benefits:

- Effective on egg laying and early stages of mite life cycle
- Offers broad spectrum control of many mite species
- Soft on beneficial insects
