

WEATHER GARD™ ELITE is an all-in-one adjuvant improving penetration, water conditioning, and deposition while reducing drift and foam all in an easy-to-use liquid formulation that can be stored in larger pack sizes like bulk and totes. WEATHER GARD ELITE includes **LECI-TECH®**, a technology that assists overall spray performance and is optimized for use with all herbicides.

WITH LECI-TECH TECHNOLOGY

To the plant:
Drift reduction with performance-sized droplets

On the plant:
Droplet retention by adhesion and spreading

In the plant:
Increased penetration without cuticle disruption

FEATURES

- Contains LECI-TECH, a unique technology that assists overall spray performance
- Formulated as a deposition aid, drift control agent, penetrant, antifoam/defoam agent, and water conditioning agent
- Compatible with glyphosate and D-trait crops

GROWER BENEFITS

- Minimizes the impact of hard water ions that can reduce herbicide performance
- Supports bulk handling operations
- Water conditioner without the use of AMS

RATES

Application Rate: 1-2 qts/100 gal

Recommended Rate: 2 qts/100 gal
