

SAFLUFENACIL	GROUP	14	HERBICIDE
DIMETHENAMID-P	GROUP	15	HERBICIDE
PYROXASULFONE	GROUP	15	HERBICIDE

FORTITRI is a unique corn pre-emergent herbicide from Loveland Products. This is an excellent option for both one or two pass herbicide programs and is a great resistant management tool that offers broad spectrum control of over 75 grass and broadleaf weeds. FORTITRI consists of three powerful active ingredients that deliver both burndown and residual control, and it may be used with or without atrazine.

PRODUCT FEATURES

- Packaging: 2x2.5 gal
- Formulation: suspo-emulsion concentrate (SEC)

GROWER BENEFITS

- Three herbicide-active ingredients offering two modes of action, delivering exceptional burndown and residual control
- Flexibility to use in a one pass or two pass herbicide program
- Broad spectrum control of over 75 grass and broadleaf weeds
- Atrazine is not required
