

**N-FINITY™** is a novel technology designed to supplement nitrogen and improve nitrogen use efficiency through three unique modes-of-action.

## FEATURES

- Maximizes biological nitrogen availability
- Proprietary three mode-of-action formulation
- Fixes atmospheric nitrogen
- Recruits additional N-fixing bacteria
- Liberates from organic pools in the soil

## GROWER BENEFITS

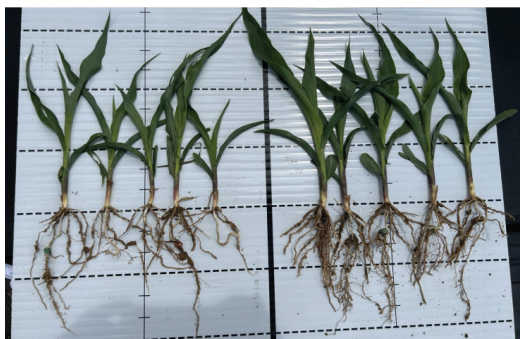

- Improved overall nitrogen use efficiency
- Added sustainability to your nitrogen plan
- Flexible application timing
- Compatible with in-furrow starters and liquid UAN blends

## RATES

1 - 2 qt/A In-furrow, 2x2 or liquid sidedress

### N-FINITY

Adamstown, MD. At-Planting 21 DAP.
