SCANNER is an 80/20 non-ionic surfactant offering uniform leaf coverage, wetting and distribution of pesticides on plant surfaces.

Product Benefits:

- Formulation is biodegradable and non-flammable
- Mild odor - carries the CAUTION signal word
- Formulation has neutral pH of 7.1 (1% v/v solution)
- Very low use rates that provide uniform spreading and wetting of the pesticide spray solution
- Low foaming formulation
- Product emulsifies easily and is very user-friendly
