MAXIMUM N-PACT (24-0-0, 33% SRN) is an enhanced triazone nitrogen which provides a stable source of foliar nitrogen for increased uptake, translocation and assimilation of nitrogen, reduced volatility, and excellent crop safety with increased stress tolerance. MAXIMUM N-PACT consists of 16.08% urea nitrogen and 7.92% other water soluble nitrogen (Urea-Triazone Solution).

Product Benefits:

- Excellent source of foliar nitrogen
- 31% more efficient in uptake vs. other nitrogen sources
- Improved crop safety
- Increased drought and salinity tolerance
- Increased photosynthesis
- More effective response to stress
- Can be used on most specialty and field crops to enhance growth and quality, correct nitrogen deficiencies, and help plants recover from stressful conditions
