Active Ingredients

- propiconazole

FITNESS fungicide is a proprietary propiconazole formulation that is designed specifically to provide broad-spectrum disease control (both curative and preventative), minimize risk and enhance overall crop performance. Early application of FITNESS fungicide will help maximize the ability to have a healthy flag leaf.

Product Benefits:

- Premium multi-component oil/surfactant system
- Premium, fertilizer-compatible emulsifier stabilizes solution in the spray tank
- Increases fungicide activity and penetration of the plant surface
- Easy-to-use, non-foaming formulation allows easy mixing of chemicals and complete clean out of the spray tank
- Speeds up drying of the fungus to prevent re-infection
- Can be applied by ground or air
