

Active Ingredients

- azoxystrobin

www.lovelandproducts.com

SATORI is a LECI-TECH enhanced formulation of azoxystrobin which offers improved fungicide performance on multiple crops.

Product Benefits:

- LECI-TECH enhanced formulation gets TO, ON and IN the plant providing greater uptake for improved performance
- Azoxystrobin fungicide provides broad spectrum disease control in many different crops
- Systemic activity provides preventative and some curative disease control even to new growth
- Stay green affect helps the crop utilize sunlight for improved yield potential
