DOUBLE HEADER® corn herbicide is a unique combination product delivering burndown and excellent residual activity on a broad spectrum of weeds long into the growing season. With tank mix compatibility to customize weed control, DOUBLE HEADER offers the flexibility of being applied both pre- and post-emergent.

Product Benefits:

- Provides corn the best possible weed-free start.
- With pre- and post-emergence application timing, it is convenient for the user to suit different management programs.
- Compatible with atrazine, glyphosate and other herbicides providing flexibility to customize weed control.
- Contains two active ingredients (mesotrione and acetochlor) to provide a management tool against resistant weeds with two different sites of action.

Active Ingredients

- mesotrione
- acetochlor
