

NEED FOR SPEED
program

Provides consistent, firm and fast greens players want!

The Right Track for Faster Greens on Your Course

The pace of everything is quicker these days, and golfers want their greens fast too. Now you can meet that "Need for Speed" with the combination of Signature® Brand Fertilizers Sirius®, SilStar® and SST 8% Calcium driving your turf nutrition program.

These exclusive Loveland Products nutrients feature pure phosphite and SST silica bound together through a unique technology. Together, Sirius, SilStar and SST 8% Calcium produce the consistent, firm and fast greens players want. Phosphite, silica and calcium promote plant health and better cell development.

In combination, Sirius, SilStar and SST 8% Calcium are like race cars drafting for optimum performance. Greens obtain the desired density and speed, making you the winner.

Get up to speed with Sirius, SilStar and SST 8% Calcium, providing faster greens for an exciting finish to every hole.

SST delivers PERFORMANCE in three ways:

- Increased plant uptake
- Increased compatibility for greater tank mix flexibility
- Stable in a spray solution at a pH of 3-12, versus other silica products that are only stable at a pH of 7-11

Rates:

1-2 applications before a tournament or apply weekly to improve overall roll and plant strength with the following products listed below.

Sirius®: 7 oz /1000 sq ft

SilStar®: 4-6 oz /1000 sq ft

SST 8% Calcium: 3-6 oz /1000 sq ft
