

A Liquid Seed Treatment Polymer

KEEP FROM FREEZING
NET CONTENTS
2.5 Gallons (9.46 liters)
24.57 Pounds (11.145 kilos)

Application & Mixing Instructions.

1. Refer to the Crop Rate Chart for the recommended application rate for the specific crop to be treated.
2. Shake well or agitate Treating Solutions™ products prior to use.
3. Application equipment must be clean and free of previously used seed treatment residues before applying any Treating Solutions™ product.
4. Always check compatibility of all components that will be in the treatment slurry prior to large scale mixing.
5. Mix the treatment solution for a minimum of 10 minutes following the addition of all components. Maintain constant mechanical and/or bypass agitation throughout the entire mixing and treating process.
6. Accurate calibration of the application equipment and frequent check of this are advised to insure proper seed coverage and loading.
7. Environmental conditions such as temperature and humidity can influence seed handling and drying after treatment.

Storage and Disposal

1. **PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal. Do not reuse this container.
2. **PESTICIDE DISPOSAL:** Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.
3. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture, and dispose of in a sanitary landfill or by other procedures approved by Federal, State, and local authorities.
4. **GENERAL:** Do not contaminate water, food, or feed by storage or disposal. Do not reuse this container
