

Engenia® Herbicide + STRIKE FORCE + Reign

High Performance Adjuvant Recommendation

Engenia® herbicide is designed to be the industry’s lowest volatility dicamba formulation. It is an ideal dicamba option to help manage glyphosate-resistant and tough-to-control weeds.

The addition of Strike Force® plus Reign® or Reign LC offers enhanced performance and the flexibility to tank mix any additional products that have been approved. Flexibility is critical to operate efficiently, apply product legally, and position the right agronomic program specific to each farm.

BASF - Engenia (Dicamba) Approved Tank Mix Options

Approved DRA	Reign or Reign LC			
Adjuvants	Activator 90	Glyphosates <i>(Glyphosate maximum use rate/A per application is 1.125 lbs of acid equivalent)</i>	Mad Dog	
	Choice Trio		Mad Dog 5.4#	
	Compadre*		Mad Dog K6	
	Comp-Aide		Mad Dog Plus	
	E-Z Mix		Makaze	
	Freeway		Makaze Yield Pro	
	Herbimax		Acephate 90 WDG*+	
	Infuse*		Sniper*+	
	Liberate*		Sniper Helios*+	
	MSO Concentrate with Leci-Tech*		Swagger*+	
	Phase	Tombstone Helios*+		
	Phase II	Dimethoate 440*+		
	Reign	Insecticides	Awaken 3D	
	Reign LC		Blackmax 22	
	Scanner		Lokomotive	
	Spreader 90		Maximum N-Pact 24-0-0	
Strike Force*	Maximum N-Pact B			
Top Shelf (High Surfactant Oil Concentrate)	Maximum N-Pact K			
Herbicides	Diuron 4L	Plant Nutrition	N-Pact 26-0-0	
	Dog Fight+		Nutrisync 3D	
	Intensity Post-Emergence Grass Herbicide*		Nutrisync Boron	
	Intensity One Post-Emergence Grass Herbicide*		Re-Nforce K	
	Intimidator*		Task Force 3D	
	Metribuzin 75		Other	Radiate+
	Stealth*			Mepiquat+
	Top Gun			Potenza+
	Ph Modifier			
			Maximum N-Pact B	

TO: To the plant with performance-sized droplets
 ON: Droplet retention by adhesion and spreading
 IN: Increased penetration without cuticle disruption
 Defoamer stops and eliminates foam buildup
 Water conditioning without AMS

+ Must be used with a glyphosate on approved list.
 * Use with Approved DRA such as Reign or Reign LC Reference Only (current as of 5/19). As always, please read and follow labeled directions for specific products being used. Use approved tank mix products and DRA found at www.xtendimaxapplicationrequirements.com

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.
