

**Altura™** is an phosphate and zinc nutritional product for progressive farmers interested in more mobile, significantly more available phosphate to aid root growth and development. Built with C<sup>2</sup> Technology, the unique formulation of Altura maximizes uptake and extends availability of phosphorus for a robust approach to early season nutrient management.

### GROWER BENEFITS:

- Immediately available phosphorus enhanced to provide extended nutrient access at critical growth stages for a season long nutritional solution
- Pairs well with other nutrients to increase their uptake and performance
- Supplies phosphorus and zinc to encourage early season growth and development, supporting yield and quality goals

### RATES:

2-10 gal/A

### FEATURES:

- Unique C<sup>2</sup> formulation maximizes phosphorus and zinc availability and mobility in the soil and superior uptake in the plant
- Contains highly available Ortho Phosphate and readily accessible zinc
- Non-phytotoxic nutritional formulation is flexible in application and sound for many crops in many growing conditions

### ANALYSIS:

7-21-0 .2 Zn with C<sup>2</sup> Technology

#### What is C<sup>2</sup> Technology?

**C<sup>2</sup>** is a proprietary technology consisting of extracted Carbon and Carbohydrate reacted with nutrients for improved Soil Health and Plant Performance.

**Carbon:** Increases nutrient availability by fostering growth of beneficial soil microbes and positively impacting soil attributes creating better holding capacity for nutrients and water

**Carbohydrate:** Improves nutrient uptake and availability in both soil and foliar applications
