

BLACK LABEL® Zn is a phosphate fertilizer built with C² Technology – to provide sound, efficient and immediately available phosphate based nutrition. C² Technology reacted with nutrition promotes extended nutrient uptake and supports a better soil environment, which for corn growers means better potential for more bushels in the bin each year.

GROWER BENEFITS:

- Highly available phosphorous (P) and zinc (Zn) to drive early season development
- Enhanced cation exchange column (CEC) of application zone
- Designed to enhance total nutrient availability

RATES:

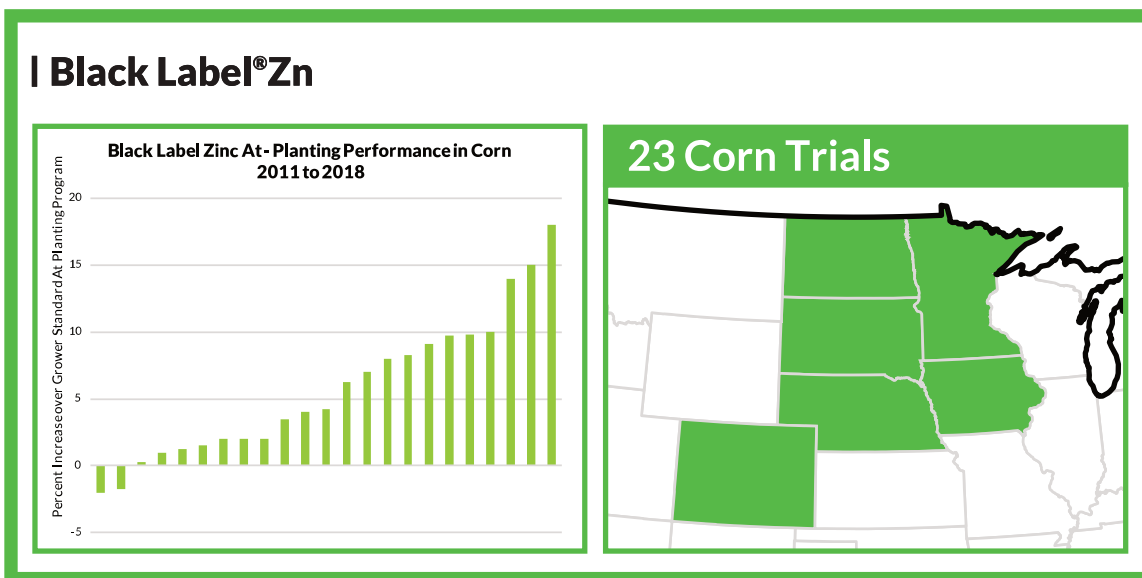

Soil: 1 to 5 gal/A In-furrow or 1 to 10 gal/A per application 2x2. Foliar: 2 to 8 qts/A per application

FEATURES:

- Powered by C² Technology to enhance total nutrient availability
- Built with immediately available ortho phosphate
- Sound, efficient flexible zinc phosphate formulation

ANALYSIS:

6-20-0 .77% Zn with C² Technology
