

**CHOICE® TRIO** is a non-AMS liquid water conditioner designed to aid in the performance of herbicides susceptible to the negative effects of hard water. CHOICE TRIO performs via three modes of action: sequestering, chelating, and complexing of all hard water cations.

### **GROWER BENEFITS:**

- Reduces effects of hard water on herbicide performance without the use of AMS
- Effective on all hard water cations
- Can be used in applications where AMS is not recommended but water conditioning is required

### **TARGET CHEMISTRIES:**

Herbicides

### **RATES:**

1-2 qts/100 gals spray solution

### **FEATURES:**

- Water conditioner: Sequestering; Synthetic chelating; & Complexing
- Non-AMS formulation

### **CHOICE® TRIO VS AMS**

Ammonium Sulfate
