## **RADIATE®**

RADIATE is a plant growth regulator with a patented formulation of Indole-3-butyric acid (IBA) and Kinetin. This patented formulation helps crops develop longer, healthier, stronger roots to improve nutrient uptake, stress resistance and plant health. In many soil types or application systems, the root force of RADIATE can enhance yields and crop quality.†

### **GROWER BENEFITS:**

- Improves early season vigor
- Promotes root and shoot growth
- Reduces early season stress
- Labeled for both in-furrow and foliar applications
- Compatible with most fertilizers and pesticides

### **RATES:**

2-4 fl oz/A for most crop

## **NUTRISYNC® 3D**

NUTRISYNC 3D is a nutrient transport technology designed to move key nutrients to where they are needed most. Optimized ratios of Molybdenum and Boron work with crops such as cotton, soybeans and legumes for a quick and strong plant response. NutriSync 3D helps plants better utilize nutrition enhancing crop growth throughout the season to support yield and quality goals.

### **GROWER BENEFITS:**

- Re-designed for a quicker crop response
- Get your nutrients to where they are needed most in your crop
- Better nutrient utilization for improved overall plant health and vigor

### **RATES:**

5 to 10 fluid oz/A

## **MAKAZE®**

MAKAZE is a fully loaded glyphosate with LECI-TECH® Technology getting TO, ON & IN the plant, providing superior penetration into the leaf surface enabling greater uptake, translocation and rainfastness for complete weed control.

### **GROWER BENEFITS:**

- LECI-TECH Technology, getting TO, ON & IN the plant
- Greater uptake & Superior leaf penetration provide excellent rainfast & complete weed control
- Reliable performance even under adverse conditions

### **RATES:**

32 oz/A

## **STRIKE FORCE®**

STRIKE FORCE is a proprietary adjuvant specifically researched and developed for D-treated (dicamba and 2,4-D tolerant crops) acre. Containing patented technology, STRIKE FORCE is designed to maximize performance.

### **GROWER BENEFITS:**

- TO ON & IN with LECI-TECH® INSIDE
- Water conditioning component minimizes the effects of hard water
- Antifoam/defoam for quicker and easier spray tank filling

### **RATES:**

2 qts/100 gals spray solution (minimum 10 GPA) Check label for mixing order
