

For growers or custom applicators who want to minimize the variability in performance of strobilurin fungicides, **FRANCHISE**<sup>®</sup> is specially formulated for use when spraying fungicides on crops that are experiencing stress. Unlike traditional surfactants, **FRANCHISE** is specifically formulated for use with strobilurin chemistries.

### FEATURES:

- Contains **LECI-TECH**<sup>®</sup>, a unique technology that assists overall spray performance
- Can be applied by ground or air
- Liquid formulation

### GROWER BENEFITS:

- TO: Drift reduction with performance-sized droplets
- ON: Droplet retention by adhesion and spreading
- IN: Increased penetration without cuticle disruption
- Consistently minimizes variability of strobilurin performance
- Proprietary formula is particularly helpful to plants experiencing stress

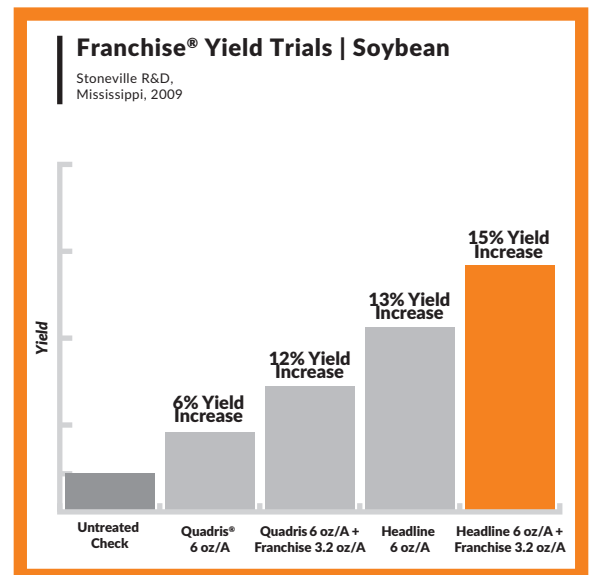

### RATES:

**Ground:** 3 to 4 ounces/acre

**Aerial:** 1 to 2 ounces/acre

### TARGET CHEMISTRIES:

Strobilurin Fungicides
