

NITRAIN BULLET™ is the next-generation nitrogen stabilizer from Loveland Products – protecting plant-available ammonium from losses to the environment and maximizing the amount of nitrogen available for crop uptake. With a low, per-acre-based use rate and flexibility with anhydrous ammonia and UAN, NITRAIN BULLET is the most effective and user-friendly nitrogen stabilizer for spring or fall applications.

GROWER BENEFITS:

- Protects ammonium in its plant-available form for 3X longer than without a stabilizer
- Proven to reduce nitrogen leaching into the environment
- Delivered +6 bu/A avg over untreated fertilizer in a 3-year replicated Midwest study

FEATURES:

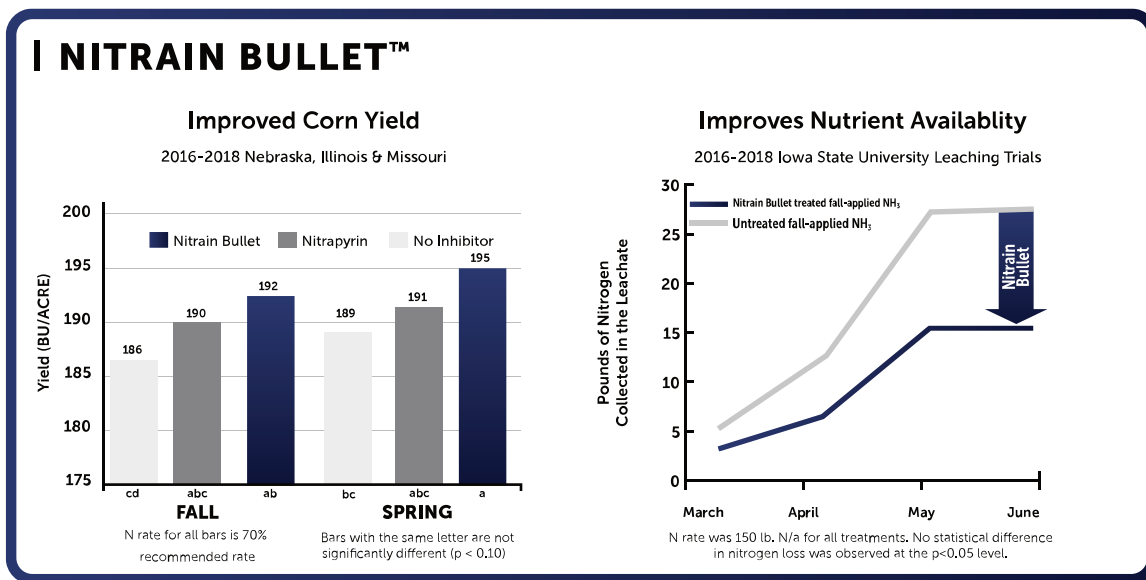

- Per-ton rate structure
- Application flexibility with spring- or fall-applied anhydrous ammonia or UAN
- Noncorrosive, user-friendly liquid formulation

ACTIVE INGREDIENTS:

Pronitridine

RATES:

Anhydrous Ammonia - 5 gal/ton; UAN - 2.5 gal/ton
